in many western societies today the optimism of the 1990s and early 2000s has given way to a deep unease and sense of foreboding in the aftermath of the financial crisis many people feel worse off and the future seems bleak the mood has changed that s clear but what is the mood how can feelings be shared by many people and how do these shared feelings shape the course of events in this book the sociologist heinz bude offers a highly original analysis of this vital but neglected topic moods he argues are ways of being in the world moods shape how we experience the world which feelings and thoughts suggest themselves to us and which are excluded but moods are not purely private on the contrary they form the basic tone or colouring of our collective existence and experience they are crucial in determining our political outlook and preferences our attitudes and identities and they provide much of the energy that underlies forms of collective action including social movements that seem to appear suddenly from nowhere with the growing significance of a politics of discontent bude s insightful analysis of the power of collective moods could not be more relevant his book will appeal to anyone wanting to understand how our societies are changing in these profoundly uncertain times

this is a study of the history of ideas specifically ideas held by black americans it is the first intellectual history book to break with the standard interpretation of black thought that has dominated the field since the 1920 s and it is the first study to relate present day protest to the protest thought of the past essentially this book attempts to get behind the formal ideas to their origins in myth and social necessity it does not attempt to restate the pattern formal ideas of black thought have taken while this study does help to put some of the formal ideas into new perspective the primary purpose of the book is to study myth itself its origin and its influence in structuring the patterns formal ideas have taken publisher
