the only local text in the market business analysis and valuation provides a framework for understanding and using financial statements for business students and practitioners developed specifically for students undertaking accounting valuation subjects the text is unique in its approach which introduces and develops a framework for business analysis and valuation using financial statement data then shows how to apply this framework to a variety of decision contexts all chapters of this edition have been updated to include the latest regulations practices and examples from both the financial markets and research industry insights from practitioners and other experts have been added to each chapter giving students a practical real life understanding of how the content they are learning translates to the workplace with an increased number of real business asia pacific case studies exploring various issues including a running chapter example and references to recent research in this field the text offers local context and a practical and in depth approach

this text thoroughly discusses a series of techniques in financial statement analysis such as business strategy analysis accounting analysis financial analysis ratio and cash flow analysis and prospective analysis for forecasting and valuation

now in its sixth edition business analysis and valuation ifrs standards edition has successfully taught students how to interpret ifrs based financial statements for more than twenty years with the help of international cases the authors illustrate the use of financial data in various valuation tasks and motivate students to build a thorough understanding of theoretical approaches and their practical

application

the new edition of business analysis and valuation builds on the strong success of the first ifrs edition providing students with the knowledge of how to use financial statement information to assess a firm s financial performance value and creditworthiness the text is primarily aimed at masters and upper level undergraduate programs in business and builds a bridge between accounting and finance therefore making it accessible to both finance and accounting students the distinctive strengths of this text include a large number of real world cases used to illustrate theory the step by step analysis methodology and the extensive discussion of strategy analysis the presentation of material is based on business analysis before financial analysis which ensures that financial analysis is approached in a real world manner and is driven by strategy the pedagogy is geared toward helping students to develop strong practical skills using current applications and supported by the extra interactive material on the companion website this new edition retains some of the most popular harvard cases from the previous edition alongside new harvard cases and a range of long and short cases on european and international companies written by the adapting author erik peek

includes original philosophy books published outside of the united states in english between 1940 and 1978 and articles published in philosophy journals between 1940 and 1966
